

Lori Bliss Tambone is a Professional Engineer and co-founder of Tambone Companies and related entities. Lori is responsible for bringing each project through every phase – from design, engineering, permitting, and construction through occupancy. In this capacity, she also manages the diverse team of project managers, contractors, and support personnel in the various regional offices, as well as overseeing the general office administration.

Lori brings over 30 years of engineering, administration, and management experience to the company and to her involvement with community activities. Lori holds a Bachelor of Science degree in Engineering from the University of Central Florida. She became a registered Professional Engineer in Florida in 1987 and in Massachusetts in 1995. She is also a registered real estate broker in Massachusetts and in Florida.
